Our KE classes focus on the District 205 kindergarten curriculum through an interest-based model. Our children write stories, play with letters, blend and segment words, direct and act in plays, participate in math games, graph results, “weigh” numbers, measure distances, construct ramps and levers, and investigate art, mass, volume, nature and the world around them. They work in teams in small and large groups, learn to negotiate, use manners, and build critical thinking skills – ALL WHILE HAVING FUN!

Kindergarten Enhancement is a wonderful complement to my daughter's public school kindergarten class. The reading and math skills my daughter is learning in kindergarten are then presented in different ways at BLC.

Through staging plays and various games, I see the children working in small groups and applying their academic lessons. I like that she is continuing to develop her communication and organization skills through play!”

Todd - Father of K.E. Student

“KE was a perfect fit for our daughter Camryn. We knew that an all day program was not a good fit for her or for us, yet we had a feeling she might get bored being at home 5 afternoons a week. The Tuesday/Thursday schedule was a perfect fit for her.

It's a wonderful mixture of enhancing what she is already learning in her morning kindergarten class. I would recommend the program to any parents of kindergarteners.”
